NEW BUSINESS

Water Reduction Policy – The Board was presented with the option to amend the current policy. It would include language that the water leak must be 2 times the normal use in order for a reduction to be approved.

The Board discussed the option at length and agreed to keep the leak reduction policy as is.

Spare TreeTops Pump Purchase – Russell Stoudt presented the proposal to purchase a spare pump for the TreeTops pump station. A VFD was installed at the pump station and since the install the electric bill has decreased by approximately \$125.00. The old pump could not be used as a spare due to some refabricating of the piping within the station. The area is too small and the old pump will not fit. Mr. Stoudt proposes the purchase of another pump identical to the existing pump while it is still available to avoid issues in the future.

A motion was made by Dan Novakovich to authorize the purchase of a spare pump for the TreeTops pump station. The motion was seconded by Jack May and hearing no questions on the motion, it passed unanimously.

UNFINISHED BUSINESS

Giorgio – Mr. Donovan advised the Board that Giorgio Foods Inc. (GFI) is pursuing the option of using the Authority's treatment plant to treat their pre-treated effluent. Giorgio asked that SDE complete a cost determination to conduct the project at around \$10,000-15,000. The second item GFI asked is that if SDE is doing the engineering work, then they do not want an ex GFI employee involved in the project in any form due to prior relations with Giorgio. A motion was made by Dan Novakovich to authorize Mr. Donovan and Mr. Becker to contact Kevin Manmiller, state that SDE has advised that a cost study can be conducted at a cost not to exceed \$15,000.00 and advise Giorgio that the project is believed to fall under the open records law and SDE will be the Engineer on the project.
