Well #6 Offsite Easement Concerns – Mr. Donovan advised the Board that Mr. Breidenstein called asking for an update in regards to his request. Mr. Breidenstein was not happy having to deal with a temporary fence for a longer period of time that what was originally told to him. Mr. Donovan and Mr. Breidenstein discussed some options and Mr. Donovan asked for some quotes. The final proposal is the contractor comes in and places two gates where the Authority will need to put pipe back in and those gates will be Mr. Breidenstein's permanent gates. Mr. Breidenstein is offering to put the gates in and take his temporary fence and create a barrier for the dogs while the fence is up. Mr. Breidenstein is asking for compensation of \$1,500.00.

Mr. Becker reminded the Board of the easement terms. The easement was for a year, but the Authority expected the project to be completed well before that and Mr. Breidenstein was under

the same impression. Mr. Becker advised that the Authority may want to offer additional compensation to Mr. Breidenstein if the easement agreement must be extended.

A motion was made by James Nothwehr offer Mr. Briedenstein \$1,000.00 in compensation based on Mr. Donovan's recommendations and offer \$1,500.00 instead if an extension is needed on the easement agreement. The motion was seconded by Marie Coraluzzi and hearing no questions on the motion it passed unanimously.

ROUTE 222 PROJECT – Mr. Unger advised the Board that the project is progressing nicely and the majority of the surveys are complete. The project is currently in-house being drafted. SDE gave the Authority what the engineering costs will be for the project based on a strict percentage of the cost of the project. PennDot came back to SDE and wanted a breakdown in hours and rates of what is required instead of the costs based on a percentage. SDE took the percentages and backed into the hours and rates so the engineering costs are now in tabular form.

Mr. Unger is asking the Board for approval of the appendixes that PennDot has required to further describe the rate structure for the engineering and design.

A motion was made by Dan Novakovich to approve the appendixes that PennDot has required. The motion was seconded by Jerry Hartman and hearing no questions on the motion, it passed unanimously.
