SOLICITOR'S REPORT.

Well 4

Mr. Becker advised the Well 4 property that was taken to auction and did not sell is being conveyed to the Township. Mr. Becker is working on a draft agreement of sale. The way the agreement is set up is the Authority is conveying both parcels for zero consideration and the Authority is paying for all costs associated with the conveyance. Mr. Becker is waiting on the Township's solicitor to address a few minor issues and the agreement should be ready for the next meeting.

Well 3

Mr. Becker is working with the realtor for the property alongside Well 3. The realtor has prepared the agreement of sale. A few items in the agreement need to be discussed before finalizing the agreement. The first item is whether or not the Authority wants to have inspections done on the property prior to purchase. The second item is the realtor is ready to close quickly.

A motion was by Dan Novakovich to authorize the appropriate Authority official to execute the agreement of sale for the purchase of the land adjacent to Well 3 subject to the solicitor and manager's review of the revised agreement of sale. The motion was seconded by Jack May and hearing no questions on the motion, it passed unanimously.

A motion was made by Karl Bolognese to authorize the manager to take the appropriate steps to get the construction piles on site tested at an appropriate laboratory. The motion was seconded by Jerry Hartman and hearing no questions on the motion, it passed unanimously.

A motion was made by Jack May to authorize closing on the transaction and authorize the appropriate Authority officials to execute the closing documents as soon as the Authority is able to effectively close on the property at a price of \$120,000.00. The motion was seconded by Jerry Hartman and hearing no questions on the motion, it passed unanimously.

Mr. Becker asked for a brief executive session to discuss personnel.

ENGINEER'S REPORT

Pamela Stevens informed the Board the only update on the sewer rehabilitation project is the Authority and SDE are working on highway occupancy permits. The permitting process is now done via e-permitting. The permits need to be pulled prior to bidding the project so the contractor has the permit to do the work.
